## SECURITY MEASURES POLICY

1. **Application Required.** Before any security measure contemplated by Section 202.023(a) of the Texas Property Code (“Code”) is constructed or otherwise erected on a Lot, an Easton Park Reviewer application must be submitted to the Association and approved in writing in accordance with the Declaration. The following information must be included with the application:

- a. Type of security measure;
- b. Location of proposed security measure;
- c. General purpose of proposed security measure; and
- d. Proposed construction plans and/or site plan.

2. **Other Applicable Requirements.** Owners are encouraged to be aware of the following issues when seeking approval for and installing a security measure:

- a. The location of property lines for the Lot. Each Owner should consider obtaining a survey before installing a security measure;
- b. Easements in the area in which the security measure is to be installed;
- c. Underground utilities in the area in which the security measure is to be installed.

**The Association is not obligated to and will not review an Owner’s Easton Park Reviewer security measure application for the above-referenced issues. Owners should be aware that a security measure may have to be removed if a person or entity with superior rights to the location of a security measure objects to the placement of the security measure.**

3. **Type of Fencing.** The Code authorizes the Association to regulate the type of security measure fencing that an Owner may install on a Lot.

- a. Security measure fencing generally
  - (i) Security measure fencing cannot contain Decorative elements and embellishments (whether part of the fence construction or are add-on decorative elements/embellishments). This prohibition includes, but is not limited to, prohibiting finials (of any shape or design), fleur de lis, points, spears (of any shape or design), and gate toppers of any type.
  - (ii) Unless otherwise provided by the Association’s dedicatory instruments, chain link, brick, concrete, barbed wire, electrified, vinyl, and stone security measure fencing is expressly prohibited and will not be approved by the Easton Park Reviewer.
  - (iii) No vines or vegetation shall be allowed to grow on security measure fencing.
- b. Security measure fencing forward of the residential structure on a Lot as depicted on the applicable Lot survey:

The Easton Park Reviewer shall have the discretion to approve any other type of metal security measure fencing, however, the follow types of metal fencing are prohibited and will not be approved: (1) stamped metal fencing (including gates); (2) metal panel fencing; and (3) solid metal fencing. It is the intent of this Policy that all security measure fencing forward of the front building line on a Lot have the appearance of what is commonly called "wrought iron fencing";
  - (ii) Must consist of straight horizontal rails and straight vertical pickets and/or posts;
  - (iii) Must be black or any color approved by the Easton Park Reviewer (including gates);
  - (iv) Security measure fencing pickets shall be 3/4", 4" on center with 1-1/4" top and bottom rails. All framing must be on the inside (i.e., the residence side) of the security measure fencing;
  - (v) Any driveway or pedestrian gates on security measure fencing must be of the same material as the fencing and swing inward and related fence motors/equipment must be kept screened from view with evergreen shrubs or in such other manner approved in writing by the Easton Park Reviewer;
  - (vi) When security measure fencing meets a wood fence, the security measure fencing may not be attached to the wood fence. The security measure fencing shall be terminated with a three-inch (3") metal post (either steel, wrought iron, or aluminum) adjacent to the wood post/wood fencing; and
  - (vii) Chain link, brick, concrete, barbed wire, electrified, vinyl, wood and stone security measure fencing is expressly prohibited and will not be approved by the Easton Park Reviewer.
- c. All security measure fencing must be installed per the manufacturer's specifications and all electric gates must be installed by a licensed electrician in accordance with all applicable codes and applicable governmental regulations.
- d. Placement of fencing and/or security measures of any type must comply with Texas and Travis County Regulations and Ordinances, if any.
- e. The Easton Park Reviewer shall have the discretion to determine any additional types of approvable or prohibited security measure fencing.

- f. If the proposed security measure fencing is located on one or more shared Lot lines with adjacent Lot(s) (“Affected Lots”), all Owners of record of the Affected Lots must sign the Easton Park Reviewer application evidencing their consent to the security measure fencing before the requesting Owner (“Requesting Owner”) submits the Easton Park Reviewer application to the Easton Park Reviewer. In the event that the Affected Lot Owner(s) refuse to sign the Easton Park Reviewer application as required by this section, the Affected Lot Owner(s) and Requesting Owner hereby acknowledge and agree that the Association shall have no obligation to participate in the resolution of any resulting dispute in accordance with this Policy.

4. **Location.** A security measure may be installed only on an Owner’s Lot, and may not be located on, nor encroach on, another Lot, street right-of-way, Association Common Area, or any other property owned or maintained by the Association. No fence shall be installed in any manner that would prevent someone from accessing property that they have a right to use/access such as a sidewalk.

5. **Disputes; Disclaimer; Indemnity.** Security measures, including but not limited to, security cameras and security lights shall not be permitted to be installed in a manner that the security measure is aimed/directed at an adjacent property which would result in an invasion of privacy, or cause a nuisance to a neighboring Owner or resident. Additionally, security lights cannot be directed up (uplighting), must be cool white/soft white in color and the lighting lumens must be in compliance with the Association’s governing documents. **In the event of a dispute between Owners or residents regarding security measure fencing, or a dispute between Owners or residents regarding the aim or direction of a security camera or security light, the Association shall have no obligation to participate in the resolution of the dispute. The dispute shall be resolved solely by and between the Owners or residents.**
